

Common Name	Cedar Sage
Botanical Name	<i>Salvia roemeriana</i>
Other Names	Cedar Salvia
Description	Gets its name because it frequently grows under the cedars found on the Edwards Plateau. Great plant to use in shady areas. Red blooms in spring; may sporadically bloom during summer.
Plant Type	Perennial
Plant Size	1 – 2 feet tall and wide
Light Requirements	Part sun to shade
Water Requirements	Low, once established
Soil Requirements	Requires well-drained soil; tolerates rocky, rough areas
Evergreen or Deciduous	Deciduous
Native Status	Edwards Plateau
Pollinators	Hummingbirds, bees and butterflies
Care Notes	Water once weekly during first season to help establish plant. Will self-seed unless deadheaded.
Texas Superstar	No
